Applications

Cumin Powder is widely used in curry powders, spice blends, sauces, soups, snacks, ready-to-eat meals, marinades, pickles, chutneys, seasoning mixes, restaurant kitchens and retail spice packs. It is highly demanded in Indian, Middle Eastern, Mexican, Mediterranean and global cuisines.

Quality & Specifications

Our Cumin Powder is processed to meet international buyer expectations. Key quality parameters include low moisture, uniform mesh size, strong aroma, controlled microbiology, natural colour and freedom from adulteration, artificial colour, starch and fillers.

Typical export specifications include moisture up to 10%, clean aroma, uniform brown colour, Salmonella absent, E. coli as per buyer specification and pesticide residue / aflatoxin / heavy metal compliance as per destination country norms.

Packaging Options

We offer flexible packaging for bulk and retail buyers.

Bulk Packing: 5 kg, 10 kg, 20 kg, 25 kg food-grade bags with inner liner

Retail Packing: 50 g, 100 g, 200 g, 500 g, 1 kg pouches or jars

Custom Packing: Private label, laminated pouch, zipper pouch, carton packing, vacuum packing, nitrogen flushing on request

Export Markets

Nature Crown supplies Indian Cumin Powder to global markets including USA, UAE, Saudi Arabia, Qatar, Kuwait, Oman, UK, Germany, Netherlands, France, Canada, Australia, Malaysia, Singapore, South Africa and other international destinations.

Why Choose Nature Crown?

Nature Crown focuses on purity, consistency, and buyer trust. We source cumin from reliable Indian farming regions, process it under hygienic conditions, offer customized specifications, and support buyers with proper export documentation and lab testing as required.

Our goal is to deliver authentic Indian spices from trusted farms to global markets with quality, care, and long-term reliability.
